

DON'T WASTE YOUR SCHOOL'S RECYCLING

Telford & Wrekin Council can provide a competitive recycling collection from your school through our Household Waste Management Services contract with Veolia.

We offer a fortnightly collection of plastic, cans, glass, paper and cardboard.

Schools can choose how and who to manage their waste collection services, however as well as our services helping your school to recycle more it will also be familiar to pupils and staff, as it is the same as residents receive in Telford and Wrekin.

The entire process works like clockwork with materials being collected, recycled and turned into new things in a matter of days or weeks:

Bottles, cans, plastics and cartons

240, 360, Euro Bin & Bags

Food
and
liquid
cartons

Paper and card

240 & 360 Bins & Bags

Transfer bags available on request*

*We can also supply bags to be used inside and then decant these into the bins for emptying.

Your school milk bottles are recycled and back on supermarket shelves in **12 weeks**.

All your cardboard is taken to a paper mill and recycled in **just 12 days**.
